It was also decided that sanction for an advance from the fund accorded in respect of a work on the basis of its estimated cost should not be reviewed with reference to actual expenditure.

(i) A clear width of not less than 18 feet measured from the nearest rail shall be left for vehicular traffic if the tramway is laid on any portion of public road.

(ii) The surface of the line shall be flush to the road berm throughout. If at any spot the tram line has to be taken in a different gradient the promoter shall at his own cost make up the existing road also to the same gradient.

(iii) If the tramway is laid on any portion of the public road, the line shall keep off the existing metalled portion of the road. In places where the existing metalling is disturbed, the road should be repaired at the cost of the promoter.

(iv) No locomotives or carriages shall be allowed to pass over culverts, if any, existing, either on tramlines laid for the purpose or without them, unless the previous approval of the Government is obtained in each case after submitting to them drawings of the culvert.

(v) The promoter shall not cut any avenue tree or branches thereof unless and after the same be approved by the District Board Engineer or an officer of the Forest department authorized by the Chief Conservator of Forests, Madras, on a personal inspection of such trees or branches thereof, and the promoter shall pay to the local and the road authority, such amounts as may be fixed by the District Board Engineer, as compensation therefor and the promoter may thereafter cut and remove such trees or branches.

14. (a) *Purchase.*—If the local authority does not within six calendar months after the expiration of a period of twenty-one years from the date of this order exercise the powers of purchase contained in the Act, then such powers of purchase shall, unless otherwise agreed between the promoter and the local authority, only be exercised within six calendar months after the expiration of every subsequent period of seven years.

(b) The Government may also at any time give to the promoter notice in writing (which notice is hereinafter referred to as notice of special purchase) of their desire to determine this order at any period on twelve months' notice in the event of its being decided to construct a railway on a different gauge in place of the tramway.

(c) Whenever the powers of purchase shall be exercised by the local authority under clause (a) or when the order is determined by notice of special purchase under clause (b), the amount to be paid to the promoter for the undertaking shall be the value of the lands, buildings, works, materials and plant of the undertaking, which shall be deemed to be their fair market value at the time of purchase with reference to their condition at the time and their suitability for the purposes of the undertaking, together with an addition of 20 per cent on that value on account of compulsory acquisition. In case of difference or dispute, such value shall be determined by a referee as laid down in the Act.

Whenever the powers of purchase are exercised with reference to section 22 (1) (c) of the Act, the amount to be paid to the promoter shall be the value of the lands, buildings, works, materials and plant of the undertaking as determined above, but no additional payment will be made on account of compulsory purchase.

The purchase money shall be paid to the promoter, his legal representatives or his or their assignees in the standard currency of India at the time of purchase.

15. *Notice of interference with roads.*—For the purpose from time to time of making, forming, laying down, maintaining and renewing the tramway or any part or parts thereof, the promoter may open and break up any road subject to the following regulations:—

(i) He shall give to the road and local authority seven days' notice of his intention, and shall define the portion of road proposed to be opened or broken up.

He shall, in the meantime, cause the place where the road is opened or broken up to be guarded and watched and properly lighted at night, and shall provide for the free passage of road traffic during the progress of the work.

17. *Alteration of road level.*—If hereafter the road authority should alter the level of any road along or across which the tramway or any part thereof is laid or authorized to be laid, the promoter shall from time to time, alter his rails so that subject to any other provisions of this order, the uppermost surface thereof shall be flush with the surface of the road as altered. Provided always that any such alteration as aforesaid by the road and the local authority shall be so made as to alter as little as possible the working condition of the tramway and so as to stop or prevent the use of working thereof as little as possible.

18. *Rights of authorities and companies to break up roads.*—Nothing in this order shall take away or abridge any power to open or break up any road along or across which any tramway is laid, or any other power vested in any local or

road authority for any of the purposes for which such authority is respectively constituted or in any company, body or person, for the purpose of laying down, repairing, altering or removing any pipe for the supply of gas or water, or any tubes, wires, or apparatus for telegraphic or other purposes; but in the exercise of such power such local or road authority and every such company, body or person shall be subject to the following restrictions, that is to say:—

(ii) Before they commence any work whereby the traffic on the tramway will be interrupted, they shall give to the promoter notice of their intention to commence such work, specifying the time at which they will begin to do so; and such notice shall be given twenty-four hours at least before the commencement of the work.

(iii) They shall not unless negligence shall be shown, be liable to pay to the promoter any compensation for the injury done to the tramway by the execution of such work, or for loss of traffic occasioned thereby, or for the reasonable exercise of the powers so vested in them as aforesaid.

(iv) Whenever for the purpose of enabling them to execute such work the local or road authority or company, body or person shall so require, the promoter shall either stop traffic on the tramway to which the notice shall refer where such traffic would otherwise interfere with such work or shall shore up and secure such tramway at his own risk and cost during the execution of the work. Provided that such work shall always be completed with all possible expedition by the local or road authority or company, body or person, and any differences as to the necessity of such work shall be settled in manner provided in section 35 of the Act for the settlement of differences between the promoter and authorities or persons.

(v) No local or road authority, company body or person shall execute such work, so far as it immediately affects the tramway except under the superintendence of the promoter, unless he refuse or neglect to give such superintendence at the time specified in the notice for the commencement of the work, or unless he discontinue the same during the progress of the work and every such authority, company, body or person shall execute such work at its or his own expense and to the reasonable satisfaction of the promoter.

19. *Altering pipes, etc.*—For the purpose of making, forming, laying down, maintaining, repairing, or renewing, the tramway, the promoter may, from time to time, where and as far as is necessary or may appear expedient for the purpose of preventing frequent interruption of the traffic by repairs or works in connexion with the tramway alter the position of any pipe for the supply of gas or water or conveyance of fluid water or sewage (not being sewers or main drains) or any tube or wire, or apparatus for telegraphic or other purpose subject to the following restrictions, that is to say:—

(i) Before laying down any tramway in a road in which any pipes, tubes, wires, or apparatus, may be laid, the promoter shall, if he contemplates altering the position of any such pipes or wires, or apparatus, give seven days' notice, to the authority, company, person, or persons, to whom such pipes, tubes, wires or apparatus, may belong or by whom they are controlled of his intention to lay down or alter the tramway, and shall at the same time deliver a description of the proposed work. If it should appear to any such authority, company or person, that the construction of tramway, as proposed, would endanger any such pipe, tube, wire or apparatus or interfere with or impede the supply of water or gas or the telegraphic or other communication, such authority, company or person (as the case may be) may give notice to the promoter to lower or otherwise alter the position of the said pipes, tubes, wires or apparatus in such manner, as may be considered necessary and any difference as to necessity of any such lowering or alteration shall be settled in manner provided by the Act for the settlement of differences between the promoter and authorities or persons, and all alterations to be made under this section shall be made with as little detriment and inconvenience to the authority, company, or person to whom such pipes, tubes, wires, or apparatus, may belong, or by whom the same are controlled or to the inhabitants of the district, as the circumstances will admit, and under the superintendence of such authority, company or person or of their surveyor or engineer, if they or he think fit to attend after receiving not less than 48 hours' notice for that purpose, which notice the promoter is hereby required to give

(ii) The promoter shall not remove or displace any of the pipes, valves, syphons, plugs, tubes, wires, apparatus or other works belonging to or controlled by any such authority, company or person or do anything to impede the passage of water or gas or the telegraphic or other communication into or through such pipes, without the consent of such authority, company or person or in any other manner than such authority, company or person shall approve until good and sufficient pipes, valves, syphons, plugs and other works necessary or proper for continuing the supply of water or gas or telegraphic or other communication as sufficiently as the same was supplied by the pipes, tubes, wires or apparatus proposed to be removed or displaced, shall at the expense of the promoter, have been first made and laid down in lieu thereof and ready for use and to the reasonable satisfaction of the surveyor or engineer of such authority, or of such company or person or in case of disagreement between such surveyor or engineer and the promoter, as an engineer appointed by the Local Government shall direct.

(iii) The promoter shall not lay down any pipes contrary to the regulations of any Act relating to such authority or company or relating to such telegraphs.
